

Laser Detox: Basic Package

NOTE: Never place your Master Remedies on the Output plate of your Remedy Maker as they may be destroyed when your instrument is turned on. They should only be placed on the Input plate when being copied – with the “copy” switch engaged. If you take care of your Master Remedies they will serve you indefinitely. For use with “Laser Detox” we recommend that you make copies of your Master Remedies and use the copies with the laser.

13. **Sinusitis:** This remedy is for serious or frequent recurring congestion. It contains – Arsenicum alb., Calcarea carb., Cinnabari Kali bichrom., Mercurius solub., Osteo-Sinusitis, Pulsatilla, Sepia, Sinusitis Frontalis/ Maxillaris and Sulfur.

30. **Drainage:** This most important remedy is made up of multiple classical components. It contains – Acid. nitricum, Acid. phosphoricum, Aranea diad., Calcarea jod., Ferrum jod., Fumaria, Hepar sulf., Juglans reg., Myositis, Sarsapa- rilla, Scrofularia nod., and Sulfuricum jod. It works well for all conditions and should be prescribed for every client because it provides general support for liver, kidneys, lymph and skin to help clear away toxin and debris that may be released by other pinpoint-targeted, antidotal homeopathics.

39. **Heavy Metal:** This Homeopathic contains remedies for the five major heavy-metal poisons - Mercury, Lead, Aluminum, Cadmium, and Arsenic, plus antidotes for Tin, Nickel, Beryllium, and Bismuth. Patients should take only five drops once or twice a week, and double up on Drainage (30) when administering Heavy Metal. Pets should be given this remedy only twice per week. It would be a good idea to add Drainage (30) to the pet’s drinking water to help aid detoxification (use your Eagle Basic/Pro to make a quart or two at a time).

113. **Sulfa Drugs:** This remedy contains - Azulfidine, Bactrim, Gantrisin, Septra, Silvadene, Sulfasalazine, Sulfidiazine, and Suprax.

117. **Antibiotics:** This remedy contains - Achromycin, Amoxicillin, Ampicillin, Augmentin, Bactroban, Ben- zamycin, Biaxin, Ceclor, Ceftin, Chloromycetin, Cipro, Cleocin, Doryx, Duricef, Dycill, Dynacin, Erythromycin, Flagyl, Floxin, Gentamicin, Keflex, Maxaquin, Minocin, Neosporin, Neomycin, Noroxin, Ocuflor, Pennicillin VK, Rifampin Streptomycin, Sumycin, Terramycin, Tobramycin, Trimox, Vancomycin, Vantin, Vibramycin and Zithromax.

000. **Glyphosate:** Created from a sample of Roundup Concentrate.
